DOMINGUEZ CHANNEL WATERSHED MANAGEMENT MASTER PLAN

Thank you for your agency's participation in the Dominguez Watershed Advisory Council (DWAC) and Dominguez Watershed Management Master Plan (DWMMP) development since its inception. Your agency's involvement with DWAC and in the development of the DWMMP has been a valuable asset and contribution.

The final draft of the DWMMP is now complete and is under review by the Regional Water Quality Control Board (RWQCB). We do not anticipate any major changes with the DWMMP. As discussed at the DWAC meeting on August 4, 2004, while the State is reviewing the DWMMP, we request that you refer to this planning document for implementation of watershed management solutions. Once the Regional Board has approved the DWMMP, we would then request you to have your respective Boards adopt the DWMMP and its principles in your projects. The document is comprehensive and a valuable asset to assist in the protection, enhancement and restoration of the environment, and the beneficial uses of the Dominguez Channel.

The completed DWMMP has been distributed to all DWAC members and is also available on our website at <http://ladpw.org/wmd/watershed/dc/DCMP/masterplan.cfm>.

Upon adoption of the DWMMP by the County, we and members of the DWAC will be doing outreach to City Councils and other entities to raise awareness about the DWMMP and promote its use. We are including a one-page information sheet, draft resolution language, sample newsletter article and PowerPoint Presentation, and a strategy sheet for your use in raising awareness about the DWMMP and building support for the DWMMP within your city. If we can be of assistance to you in helping to develop outreach strategies or materials specifically for your jurisdiction, please let us know.

We look forward to working with your agency in the future. If you have any questions, or for an electronic version of outreach materials, please contact Ms. Linda Tacconelli at (626) 458-4335.

Very truly yours,

DONALD L. WOLFE
Interim Director of Public Works

ROD H. KUBOMOTO
Assistant Deputy Director
Watershed Management Division
